Q8 a.0 b.0 c.2
Q9 a.0 b.2 c.0
Q10 a.0 b.0 c.2

What was your total score?

0 to 11... you need to think more about how your actions affect the environment.

12 to 18... you're getting there!

19 to 24... wow! We need more people like you on our planet!

Notes

Q1. Remember to switch off all electrical appliances when you leave a room. Even when they're on standby they are still consuming electricity.

Q2. Although some councils now provide food recycling boxes, they still prefer people to compost their own veggie waste. Better still, give it to your pet rabbit or guinea pig!

Q5. Old newspapers can be used for model making, protecting surfaces from paint and glue and wrapping up fragile items.

Q10. Before you think about giving away your old toys, check that it's ok with your parents.

Finished?

Why not make up some anagrams of your own on the back of this sheet? Think up some good clues for them too and test them out on your friends.

Wood is a great example of a renewable resource, if managed with consideration for people, wildlife and the environment. The Forest Stewardship Council (the FSC) has created guidelines about replanting trees and respecting biodiversity. For more information why not visit their website? www.fsc-uk.org
